Chairman's Foreword

CBA is working to:

- Represent and protect members interests in Westminster, Whitehall & Brussels
- Provide access to practical help and advice from industry experts
- Deliver affordable compliance training on demand
- Advocate the highest standards of health, safety and environmental practices
- Sustain a responsible industry through Responsible Care
- Ensure members have low cost access to an emergency response scheme
- Ensure members are aware of new and proposed legislation so that they can protect the public and the environment
- Improve the public's perceptions of the chemical industry
- Support the development of your business through networking

Welcome to CBA's Annual Report and Accounts for 2010. The following pages outline the Association's work in representing the interests of your company and in delivering added-value services to its member companies.

As you will see from the accounts pages, CBA has again been able to declare a modest surplus. This has been achieved through the continued commitment of its existing members and a steady growth in the number of new members joining the Association. A demand-led programme of seminars coupled with on-going cost control has allowed the CBA to continue its programme of investment in member services.

The key objective for my term of office is to maximise CBA's effectiveness: in representing the interests of our businesses in Whitehall, Westminster, and Brussels; by working to increase the effectiveness of our European representation through Fecc and Cefic; and, by continuing to grow the Association in terms of its membership, services and influence throughout the UK chemical supply chain.

Whilst I recognise these objectives represent a continuous process of achievement, I would like to highlight two ways in which CBA has made significant progress during 2010. The first relates to regulatory compliance. As we know, the compliance process demands an ever-increasing level of financial and technical resources. We all need to identify the most cost-effective methods of complying with our regulatory obligations.

Clearly, member companies are increasingly relying on CBA's consultancy, seminar and workshop programmes to ensure they keep on top of compliance issues.

During the second half of 2010, with both REACH and CLP deadlines looming, the demand for compliance support from CBA was unprecedented. CBA handled record levels of requests for advice and information as well as running a record number of compliance seminars. In 2010, the number of events organised by CBA increased by 10% - and the number of delegates attending rose by more than 15% on a like-for-like basis.

This situation resulted in CBA making an industry-leading commitment to deliver 'compliance training on demand' to its member companies. We believe this is the first offer of its kind to be made by a UK trade association and is subject to two caveats. Firstly, that there are sufficient delegates to make each compliance training event commercially viable; and secondly, that the actual scheduling of individual events is controlled by CBA.

The second area of progress has been CBA's investment in communications with its member companies. During the year, we launched an On-Line version of CBA's magazine, Outlook. With seven issues a year, Outlook On-Line provides an easy-to-read but focused management briefing on key issues, industry developments, as well as CBA events and services. The feed-back from member companies to Outlook On-Line has been extremely positive.

I hope you enjoy reading CBA's Annual Report and Accounts.

Dr Neville Prior, CBA Chairman

Director's Report

In one important sense, 2010 was a watershed year. Markets that for several years had favoured buyers began to favour sellers. Supply chain companies which had displayed great resilience in managing adverse trading conditions, started to experience improving demand and improving margins. By the end of 2010, a significant number of supply chain companies were returning to profitable growth. Despite markets remaining highly competitive, most CBA members seem to have emerged from what was described as the worst recession in living memory in good shape.

In operational terms, compliance issues provided the main focus for CBA's resources during 2010. In this context, CBA became the mirror image of its member companies. By a masterstroke of regulatory planning, the authorities arranged the deadlines for REACH and the notification of substances under the new classification, labelling and packaging regulations (CLP) within a few weeks of each other. Given the significance and complexity of both pieces of legislation, this compliance schedule was neither necessary nor desirable. In an era when legislators are talking volubly about 'smarter' regulation, industry has every right to expect a more sympathetic timetable from legislators.

CBA continues to build upon our relationships with the industry's regulatory authorities. We have made a major investment in this dialogue which is not only beneficial to both sides, but also allows CBA to offer valuable regulatory insights to its member companies in anticipation of coming changes. Our success in this respect was endorsed by a senior official of the Health & Safety Executive during the year who described the relationship he enjoyed with CBA as 'robust and constructive'.

CBA has published a new Code for its member companies designed to enhance the security of the chemical supply chain and guard against the potential threat of a terrorist attack. The new Code forms an integral part of the Association's Responsible Care programme. CBA also made its first awards of the new Responsible Care Third Party Verified logotype created by the International Council of Chemical Trade Associations (ICCTA).

In lobbying terms, in 2010, CBA's opposition to proposals by the Department of Transport's security directorate for changes to dangerous goods security training resulted in them being withdrawn and substantially redrafted. Similarly, CBA's campaign to prevent the European Chemicals Agency (ECHA) creating a logjam of guidance documents in the few months before the first REACH deadline proved effective. CBA's campaign resulted in ECHA declaring a six-month moratorium on further REACH guidance ahead of the 30 November 2010 deadline.

Overall, during 2010 CBA continued to establish itself as the leading association representing the UK chemical supply chain.

Peter Newport, CBA Director

CBA Finances 2010 - Treasurer's Overview

Key Figures

	2010	2009
	<u>£'000</u>	<u>£'000</u>
Membership Subscriptions	449	430
Net Trading Income	122	97
Total Costs	574	530
Interest Receivable	9	9
Surplus before Tax	6	6
	<u>£'000</u>	<u>£'000</u>
Fixed Assets	25	5
Cash & Deposits	455	479
Other Current Assets	27	25
Creditors	175	184
Members Funds	332	325

It is really pleasing to report that the Association had another very busy year, producing a small surplus for members. It is perceivable from the activity of the Association that members were themselves busy and consequently used the CBA's services more frequently in the year.

I would like to report that due to the efforts of the Marketing Committee membership numbers improved slightly, increasing overall income from member's subscriptions. It is also pleasing to see a few more new members joining the Association this year.

Also, Members attendance at CBA's seminars increased significantly during the year, with several members taking up the new Consultancy service, asking CBA to undertake a variety of services. This produced positive results.

As those members who attend "Floggers" will know, last year was a great success, with numbers increasing significantly from the low point of 2008. The Association particularly appreciates the support from a number of our member companies in the form of sponsorship of this Event.

Finally, with interest rates staying at an all time low, interest received was not unsurprisingly, very limited.

Costs

Costs increased ahead of the previous year by more than inflation, not just because of additional activity in the Association, but through a number of other factors:

- Increased attendance in representing members interests in Europe via both the Fecc and our new participation in several Cefic Working Groups.
- Developing a new web site to improve our marketing activity.
- Rent and Rates as a consequence of a one off credit in the prior year
- Professional Fees due to additional expenditure on marketing activities.

At the end of 2010 the financial position of the Association remains healthy.

Finally, I would like to record my appreciation to the staff and members of the Chemical Business Association for their assistance during the year.

Andrew Mitchell, CBA Treasurer

NOTES TO THE ACCOUNTS

1 STATUS

Each member of the Association undertakes to contribute to the assets of the Association, in the event of it being wound up, such amount as may be required not exceeding £3.10. This liability continues for one year after cessation of membership.

At 31 December 2010 there were 129 members of the Association (2009 – 127) so liable.

A list of members as at 31 December 2010 is set out on pages 35 and 36.

2 UNITED KINGDOM ACCOUNTING POLICIES

- a) The Association prepares its annual accounts under the historical cost basis of accounting and in accordance with the Companies Act 2006 as amended and applicable accounting standards.

- b) Turnover represents all services supplied by the Association net of Value Added Tax.

- c) Hire purchase and lease transactions

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account as incurred.

- d) Depreciation of tangible fixed assets

Depreciation on tangible fixed assets is charged so as to write off their full costs or valuation less estimated residual value over their expected useful lives as follows:

Furniture and equipment	3-4 years
Motor vehicles	4 years

- e) Pensions

The Association operates a defined contribution pension scheme, the assets of which are held separately from those of the Association in independently administered funds. Contributions to these schemes are charged to the Income and Expenditure Account as they become payable.

- f) Format of Accounts

The format of the Income and Expenditure Account and the Balance Sheet included have been amended where in the Council's opinion the formats are not applicable to the Association's special circumstances. The Association is a company limited by guarantee, not having a share capital.

Independent Auditor's Report

Report of the Independent Auditors to the Members of Chemical Business Association Limited

We have audited the financial statements of Chemical Business Association Limited for the year ended 31 December 2010 on pages six to thirteen. The financial reporting framework that has been applied in their preparation is applicable law and the Financial Reporting Standard for Smaller Entities (effective April 2008) (United Kingdom Generally Accepted Accounting Practice applicable to Smaller Entities).

This report is made solely to the company's members, as a body, in accordance with Sections 495 and 496 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in a Report of the Auditors and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of director and auditors

As explained more fully in the Statement of Director's Responsibilities set out on page seventeen, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the director; and the overall presentation of the financial statements.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2010 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice applicable to Smaller Entities; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Report of the Director for the financial year for which the financial statements are prepared is consistent with the financial statements.

Continued.....

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of director's remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to prepare the financial statements and the Report of the Directors in accordance with the small companies regime.

Management Committees

The Management of the Chemical Business Association is through a Committee structure comprising:

- Council
- Executive
- Marketing
- Events
- Strategy Working Group

MANAGEMENT OF THE ASSOCIATION

In accordance with the Articles of Association, the Association is managed by a Council of Management, the members of which constitute the Association's Directors. There are no contracts or other arrangements benefiting any member of CBA Council which require disclosure under the Companies Act 2006.

ACTIVITIES

The Association's principal activities throughout the year continued to comprise the promoting and protecting of the interests of distributors, traders and those engaged in providing logistics and other services for chemical and associated or allied commodities, products and raw materials.

FINANCIAL REVIEW

a) Surplus and members' funds

The Income and Expenditure Account for 2010 shows a surplus after taxation of £6,350 which has been transferred to members' funds. The Balance Sheet at 31 December 2010 shows members' funds of £331,486.

b) Financial Position

In the context of the Association's present funds together with the level of members' subscriptions to the Association for 2011, the Association's financial condition is considered satisfactory and, in the opinion of Council members, it has sufficient resources to meet its planned activities for the current financial year.

RESPONSIBILITY OF COUNCIL MEMBERS FOR PREPARATION OF THE ACCOUNTS

Company Law requires the Council members to prepare accounts for each financial year which give a true and fair view of the state of affairs of the Association and of the Association's surplus or deficit for that period. In preparing those accounts, the Council members are required to:

- Select suitable accounting policies and then apply them consistently
- Make judgements and estimates that are reasonable and prudent
- State whether applicable accounting standards have been followed
- Prepare the accounts on the going concern basis unless it is inappropriate to presume that the Association will continue in business.

The Council members are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Association and to enable them to ensure that the accounts comply with the Companies Act 1985. They are also responsible for safe-guarding the assets of the Association and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

STATEMENT AS TO DISCLOSURE OF INFORMATION TO AUDITORS

So far as the Directors are aware, there is no relevant audit information (as defined by Section 418 of the Companies Act 2006) of which the company's auditors are unaware, and the Directors have taken all the steps that ought to have been taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

POLITICAL AND CHARITABLE DONATIONS

The Association made no political or charitable donations during the year (2009 – nil).

AUDITORS

At the forthcoming Annual General Meeting, Alextra Accountants Limited will be proposed for re-appointment as auditors.

Executive Committee

Role of the Executive Committee

The responsibilities and powers of the Executive Committee, as defined in the Memorandum & Articles of the Association are: 'Those delegated to them by the Council.'

Currently these powers include overseeing:

- The administration and operations of the Association;
 - The financial affairs of CBA including the preparation of draft budgets, draft annual accounts and the allocation of funds;
 - Membership of other relevant Trade Associations;
- and,
- To provide guidance and, where required, assistance to the Director of the Association.

Executive Committee Members

Chairman

Neville Prior Cornelius Chemical Co Ltd

Vice Chairman

Mike Smith Norkem Ltd

President

Francis Osborn Industrial Suppliers (Wimborne) Ltd

Treasurer

Andrew Mitchell Tennants Distribution Ltd

Secretary

Peter Newport CBA

Officers

Adam Wallis Alcohols Ltd

Clare Waters Brenntag UK & Ireland Ltd

Paul Oliphant Multisol Ltd

Bill Bowker W H Bowker Ltd

Members of the Executive are drawn from Council and selected by the Chairman for the duration of his term of office.

The Chairman reviews membership of his Executive annually which consists of the four officers of the Association: the Chairman, President, Vice Chairman and Treasurer and four additional members selected by the Chairman. The CBA Director of the Association is an ex officio member.

Marketing Committee

The Committee's focus is on marketing and marketing communications with the aim of supporting member recruitment and retention as well as continuing to build the CBA's industry profile through an effective programme of marketing communications.

During 2010, the Committee reviewed and approved an enhanced programme of CBA marketing activities. In addition, it continued to monitor a range of on-going activities including member recruitment prospects, Outlook magazine, News Releases, CBA's website, editorial features, and sponsorship revenue.

In the Committee's view, the CBA continued to make solid progress during 2010, increasing income from subscriptions, sponsorship, events and consultancy.

In relation to marketing communications, a steady programme of News Releases and authored editorial features maintained CBA's profile and underpinned its policy and lobbying objectives.

In 2010, in addition to the printed version of Outlook magazine, the Committee monitored the development and publication of Outlook On-Line – which will appear seven times a year and aims to provide a flexible, easy-to-read briefing on topical issues for CEOs and managers. The first editions of Outlook On-Line have received positive feed-back from member companies.

Towards the end of the year, the Committee initiated the redesign of CBA's website. The Committee discussed and approved the overall styling of the new website which is expected to be fully operational and populated during May 2011.

I would like to thank all the members of the Committee for their time and commitment and express my thanks to Adam Wallis who chaired the Committee until mid-2010 and remains an active and valuable member of the CBA's Executive and Council as well as the Marketing Committee.

Events Committee

The Events Committee oversees CBA's programme of technical seminars and workshops as well as major networking events such as the Annual Lunch. The objectives of the events programme are to inform the membership of key compliance aspects, provide networking opportunities for member companies as well as generating a revenue stream for the Association that keeps subscription costs competitive.

In 2010, CBA ran a very successful series of technical events and seminars. Largely based on a number of key regulatory topics and devised by CBA staff, last year's attendance levels were boosted by imminent deadlines for the REACH legislation and the new classification, labelling and packaging regulations.

Overall, in 2010, the actual number of events organised by CBA increased by 10% - and the number of delegates attending rose by more than 15% on a like-for-like basis. This was a very creditable outcome which provided a valuable service to member companies.

Interestingly, CBA's technical events continue to attract delegates from non-member companies. Despite the fact that non-member delegates pay double the price charged to CBA members, these events are clearly still seen as offering excellent value for money. As an incentive to subsequently become CBA members, non-member delegate fees are discounted from the CBA subscription – if a membership application is forthcoming within six months of the technical event.

Despite general recessionary conditions resulting in a limited programme of networking events in 2010, it is pleasing to record that the main event of the year, CBA's Annual Lunch, attracted a larger number of members and guests than the previous year. It proved to be a very successful event through which the Association also achieved its target for sponsorship income.

CBA Strategy

CBA periodically undertakes a review of its strategy to determine the direction that the Association should take for the good of its members, the industry and to prioritise the activities in which it should seek to engage. The Strategy Working Group is derived from serving Council Members. A summary of the strategy review that was undertaken and approved during 2009 is set out as follows:

Vision

‘CBA should be the first choice Association for any organisation involved in the chemical supply chain.’

Mission

‘A highly visible, professional, innovative and vibrant business organisation, capable of engaging stakeholders.’

The Strategy is set out in four components covering: Advocacy; Standards and benchmarks; Added value services; Expand membership.

Advocacy

Key role- informs technical services
Continued focus
Europe

- increase effectiveness
- build relationships

Standards

Established track record
Voluntary Codes = reduced costs
Work with members
Europe-wide regulatory licence

Added Value Services

Strong value proposition
Consider Service Agreements

- set level for free benefits
- charges for additional advice

Develop new services

Expand membership

CBA = chemical supply chain
Simplify membership categories

- one category
- sector groups

Other Associations

- synergies
- Industry consolidation

Members of the CBA Strategy Working Group

Neville Prior, Cornelius Chemical Co Ltd, CBA Chairman

Bill Bowker, WH Bowker Ltd

Paul Oliphant, Multisol Ltd

Clare Waters, Brenntag UK & Ireland Ltd

Peter Newport, CBA

Technical Committees

The Chemical Business Association has an active technical programme of providing advice, considering and responding to consultations and lobbying on a series of issues relevant to the specific needs of its members and the industry at large.

This work is largely undertaken through its dedicated committees. These committees will, where necessary, create working groups or task forces to deal with particular issues.

The Committees and sub groups currently being run through CBA are:

- HSE Committee, and its associated sub groups:
 - REACH Task Force
 - Safety Performance Leading Indicators (SPLI) Working Group
- Logistics Committee
 - Load Securing Working Party
- Responsible Care Committee
- Good Trade and Distribution Practice (GTDP) Committee

HSE Committee

The CBA HSE committee discusses all aspects of Safety, Health and the Environment that may impact on CBA member companies.

Key Issues in 2010

As a result of the Buncefield and Texas City explosions, aspects of 'major hazard' regulation and control in the UK remained high on the agenda for 2010. These include:

- Safety Leadership
- Performance indicators
- Emergency Preparedness

The diversion of chemical substances into illicit uses such as drugs, CBRN and explosives has become a prominent issue.

The European Commission directorate responsible for major hazard regulation (Seveso) completed a review of the provisions of the Directive and issued a draft proposal for a new directive at the end of 2010.

Achievements in 2010

The CBA Hydrofluoric acid Guidance was finally endorsed by the HSE and reissued as an 'open' document for general circulation.

The committee reviewed and updated the CBA warehouse audit to take into account the SQAS programme and specific legislative changes.

Topics for 2011

The work of the HSE committee will continue into 2011 focusing on a number of key issues including:

- Major Hazards UK and European Seveso III
- REACH 2010 implementation, review 2013 registration
- CLP/GHS
- Diversion of Chemicals to illicit use
- HSE restructuring
 - Lord Young report implementation
 - Charging Proposal

David Dalton Samuel Banner & Co Ltd

Brian Luck TDG (UK) Ltd

'2010 has been a challenging year with the Committee being involved in areas such as CLP, SDS and Seveso review. 2011 looks to be as busy due to the aftermath of the three regulatory deadlines passing in December 2010 and the negotiations for the new Seveso directive.'

The Committee has had one resignation due to work commitments, but otherwise is healthy with 11 Members plus the Secretariat.

I would like to thank all the members of the Committee and their sponsors for their support throughout the year and the Secretariat for their valuable work both in and outside the Committee.'

Rachael Worrall, Chair HSE Committee

Safety Performance Leading Indicators Working Group

Aim

As a result of the investigations into the Buncefield and Texas City explosions, serious deficiencies with regard to the management of major hazard sites and the collection of key performance data were identified.

The HSE began to talk to major hazard sites with a view to them implementing a suite of indicators suitable for their business. The sub-group of CBA's HSE committee was set up with the specific task of developing and piloting a suitable suite of leading indicators by the end of 2009 and implementing them in 2010.

The group was set up with members from CBA, UKWA and HSE.

Key Issues in 2010

The major hazard warehouse industry needs simple easy to use performance indicators to allow them to monitor the performance of identified 'safety critical' aspects of their business.

Highlights of 2010

The Group completed the joint guidance with UKWA, which included an endorsement by the HSE, entitled 'Safety Performance Leading Indicators – Guidance for the Chemical Warehouse Sector' within the timescale required by HSE.

The launch event, held jointly with UKWA, was held in March 2010. It was well attended with broad representation from both associations.

Topics for 2011

It is likely that the Group will reconvene in 2011 to review the progress of implementation of SPLIs through the sector and debrief the feedback from the implementation process undergone by companies.

SPLIs Working Group Members

Alistair Hunter	Brenntag UK & Ireland Ltd
Michael Cooper	CBA
Doug Leech	CBA
Peter Newport	CBA
John Isherwood	HW Coates Ltd
Ian Travers	HSE
Peter Dawson	HSE
Mark McVeigh	Lansdowne Chemicals plc
Andy Beck	Multisol Ltd
Ian Lovely	RASE Distribution Ltd
John Davidson	Rhys Davies Freight Logistics Ltd
Geoff Allsopp	Tennants Distribution Ltd
Ian Kidd	The Potter Group Ltd
Nick Wrigley	UKWA
Ewhen Hasioszyn	Univar Ltd

'The timescale for completion of the project was challenging, but all of the members of the working group rose to the task.'

The HSE were complimentary regarding the way the project was handled and the level of attendance and participation at the launch event in March 2010

We would like to thank all the members of the working group and their sponsors for their support throughout the project for their valuable work both in and outside the Committee.'

CBA Secretariat 2010

REACH Task Force

Aim

The Task force has been delegated the responsibility for ensuring that the REACH regulation process is monitored and critical issues are highlighted to the membership.

The group is responsible for all lobbying activities on behalf of the CBA and is accountable to the CBA Council.

Key Issues in 2010

The following areas of concern for the CBA membership have been identified:

- SIEF operation and activity
- REACH IT performance
- UK and EU enforcement
- Authorisation
- Exposure scenarios
- Cost sharing
- REACH Registration Number
- Loss of products
- Safety Data Sheets

Achievements in 2010

CBA was invited to work with a group of downstream users, which resulted in a letter being forwarded to the European Commission by the UK government. The letter, co-signed by Ms Spelman (DEFRA Minister) and Dr Cable (Business Minister) highlighted the concerns of the UK downstream industries regarding 'loss of substances' as a result of the registration process.

Highlights of 2010

Due to the changes to Annex II involving Safety Data Sheets, CBA ran two successful seminars to provide advice to members. The seminars included an external speaker focussing on exposure scenarios.

Topics for 2011

Ensure up to date information is available to member companies by updating the existing ten CBA REACH supplements with the regulatory and guidance changes. New supplements will be distributed as necessary. Monitor development within the 2012 REACH scope review.

The next registration deadline is July 2013, the focus will be on making the process as easy as possible and we are in discussions with the UK authorities and EU institutions highlighting our concerns on: data ownership and cost sharing; loss of products; SIEF operation; and Authorisation.

REACH Task Force Members

Chair

Melvyn Whyte Whyte Chemicals Ltd

Secretary

Doug Leech CBA

Peter Newport CBA

Logistics Committee

Aim

The committee considers, discusses and advises the CBA membership on all aspects of the Carriage of Goods regulations.

Key Issues in 2010

In 2011 the UN & ADR regulations will be amended and published as part of their two year revision cycle. 2010 was the year when all the proposed amendments were finalised

The area of transport security is a constantly changing issue and an area where CBA is an acknowledged stakeholder.

The transportation of CBRN materials has become a focus of the European institutions as part of their on-going review of practical threats.

Load securing is a new area where enforcement activity is being focussed due to injuries to personnel on and off sites from falling product as a result of unsuitable securing.

Highlights of 2010

The committee reviewed and updated the CBA audit and guidance documents: Haulier; and Semi bulk discharge.

Topics for 2011

Preparation for the implementation of the ADR 2011 revision. Topics identified are:

- Limited Quantities
- Instructions in writing
- Ammonia in IBCs

Transportation of chemicals that are subject to CBRN.

Very High Consequence Dangerous Goods discussions within the context of UK additional controls.

'The past twelve months have proved to be challenging in the current economic climate and as such I would like to thank all members of the Logistics Committee for supporting me as Committee Chairman.'

Particular thanks go to Jim Robertson who recently relinquished the role as Chairman due to work commitments. His contribution to the Committee has been greatly appreciated.

Many thanks to the team at Crewe, for their hard work and guidance throughout the year.'

Gareth Dobinson, Chairman Logistics Committee

Load Securing Working Group

Aim

The Load Securing Working group was formed, at the end of 2010, as a sub-group of CBA's Logistics committee following increased HSE activity regarding securing of loads during transport.

The group has been tasked with writing a 'sector specific' best practice guidance document, which will be endorsed by HSE, to provide advice on the specific aspects of the carriage of packaged chemicals within the distribution sector with regard to load securing and segregation.

The first meeting was scheduled for early January 2011.

Key Issues in 2010

The distribution sector has operated a system of securing and segregating loads for a number of decades. However, recent incidents and oversight by HSE have identified a knowledge gap with the regulators towards the operational processes required to deliver 'packed goods'.

The guidance document will be written for drivers, warehouse personnel and load planners.

Topics for 2011

The main focus for 2011 will be to research and collate the current best practices within the sector and then publish a consolidated guidance document as soon as is possible.

Responsible Care Committee

Aim

The Responsible Care (RC) committee reviews the RC strategy on an annual basis, making any recommendations for development or implementation of the programme.

The Committee also assists companies to implement the RC programme and oversees the collection, collation and subsequent aggregation of the annual Indices of Performance (IoP) data. It also liaises with other Trade Associations on RC matters.

Key Issues in 2010

A derogation from the need to make an annual return of the Self-Assessment Questionnaire was introduced for the first time in 2010 for those CBA members with Third-Party Verification - eleven members met the derogation criteria.

The introduction of an electronic version of the annual IoP form has simplified the process of data return and aggregation. This was piloted for the collection of 2009 data with our Logistics Service Providers members, and rolled out to all members for the 2010 data. In 2010, the IoP form will contain revisions to the waste and enforcement sections.

A revision of the SQAS questionnaires has been undertaken during 2010, with CBA leading the group revising the SQAS ESAD document, as well as contributing to the revisions of the Warehouse modules. The launch of the revised questionnaires is expected for 1 April 2011, with a three-month transition period before the older versions are withdrawn.

The CBA Security Code and Security Guidelines were issued in 2010 as an Appendix to the RC programme. The new CBA Security Code is mandatory and requires members to carry out a documented risk assessment for their organisation, proportionate to the nature of their operational activities.

A new ICCTA Third Party Verified (TPV) logo was introduced in 2010. CBA members can request use of the new TPV logo from CBA if they have carried out an SQAS/ESADII assessment, and enable the CBA secretariat to validate their compliance with RC. Five members have been granted use of the new logo in 2010.

Topics for 2011

Topics for 2011 include: continued support and encouragement for Third Party Verification (TPV); the maintenance and development of the Responsible Care system; and the promotion of deeper engagement in Responsible Care by smaller member organisations.

Good Trade and Distribution Practice Committee

Aim

The Committee will consider any aspects that cover Good Manufacturing Practice (GMP) as well as Good Trade and Distribution Practice (GTDP). The particular areas of interest to the group are:

- Animal Feed
- Human Food
- Pharmaceuticals (Human & Veterinary)
- Cosmetics

Key Issues in 2010

Cosmetics Regulations and the interactions with the proposed new Biocides regulation.

European Good Manufacturing guidelines

Excipients

European Feed Regulations – Testing of raw materials

Highlights of 2010

Issues concerning a proposal to remove the existing exemption for cosmetic products held within the Biocides directive.

CBA participated in meetings at both the UK and EU level which resulted in a change to the draft regulation at the next meeting of the European Council of Ministers.

Topics for 2011

The Group is looking to grow the committee and to respond to the increasing interest and needs of CBA members in this sector.

There are plans to run a workshop towards the end of 2011 to bring together the regulators from the various areas covered by GTDP to provide an overview of the current and forthcoming legislative issues.

Following the difficulties experienced during 2008 with insufficient committee members being able to attend meetings, it was decided that the Committee would be conducted by e-mail for the foreseeable future.

This has worked well through 2010 and it is planned to carry on working this way through 2011. Should there be any major issues arising then meetings will be called on an ad-hoc basis.

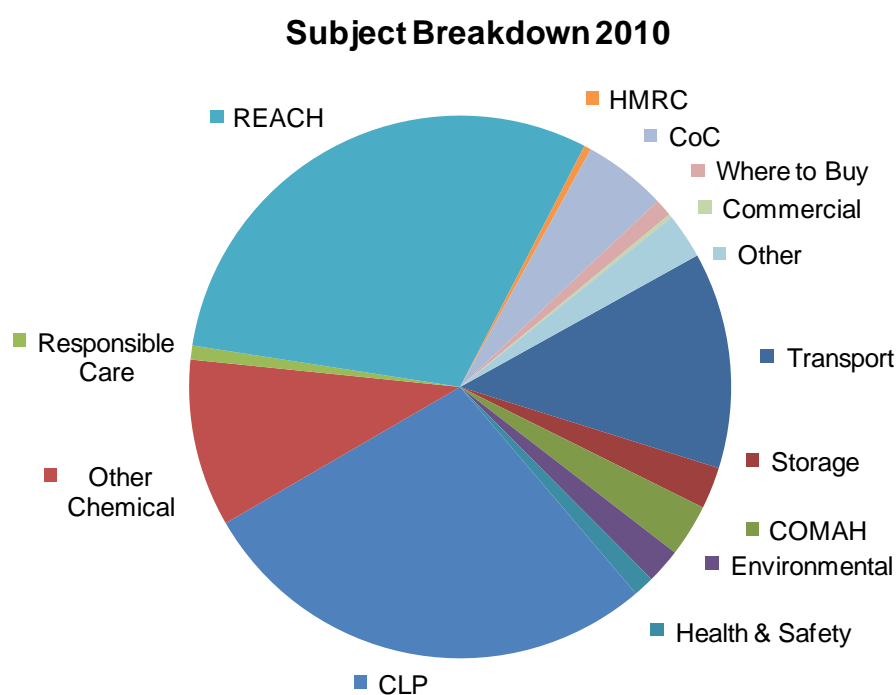

Links with the FECC's GTDP Committee were reduced during 2010 as a result of difficulties with the dates they selected. It is hoped this can be improved in 2011.

Pauline Ayres, Chair GTDP Committee

Technical Enquiries

CBA responds to a wide range of technical queries from companies. In 2010, CBA supported its members with responses to over 480 individual enquiries.

The importance and complex nature of REACH is clearly demonstrated in the breakdown of technical enquiry topics as below.

Key

CoC – Code of Conduct
 COMAH – Control of Major Accident Hazards
 GTDP – Good Trade and Distribution Practice
 HMRC – Her Majesty’s Revenue and customs
 REACH – Registration, Evaluation, Authorisation of Chemicals
 CLP – Classification and Labelling of Packages

As a result of training and existing industry experience, along with the ongoing knowledge development, gained through participation in industry and regulatory groups, the CBA staff is able to provide bespoke responses to product and application specific enquiries.

All our members are actively encouraged to use CBA’s technical services to support their business.

To ensure that CBA members have access to the most up to date and accurate information CBA staff takes an active role in many external groups and committees.

Such engagement can consume a great deal of time, but this ensures that the Association is well placed to keep its members informed in a timely fashion.

CBA Engagement with External Groups

CBA interacts with a number of external organisations in pursuit of influencing policy and representing its members' views. Whilst the list below is not comprehensive, it gives an indication of the breadth of influence that CBA companies can exert through participating in the work of CBA.
