

ESAD Seminar

CBA is committed to the Third Party Verification of a CBA member’s Responsible Care system. ESAD is a recognised assessment tool for distributors, and this ESAD seminar will allow members to understand what is required in an assessment, and help plan and prepare for an assessment.

New ESAD questionnaires became obligatory from 1 July 2011, and this CBA seminar will help you understand the important changes in the revised and updated questionnaires. The morning session will be devoted to the basic ESAD Questionnaire (Di document) as applicable to office-only companies and those with operational sites. The afternoon session has presentations on the operating site questionnaire and the ESAD appendices.

Office-only companies need not attend the afternoon session.

The seminar will cover:

- The assessment process
- The new pre-assessment document
- The 2011 ESAD (Di) questionnaire
- The 2011 Site (S) questionnaire
- The Chlorinated Solvents, Food & Pharma appendices
