

## Energy bills discount scheme (ETII)

Online Clinic

Wednesday 28<sup>th</sup> June 2023

2:00pm – 3:00pm

Free of Charge – Open to all

Faced with a crisis in the economic sector, the UK government has stepped in to provide relief from the rising costs of energy. The second iteration of government assistance, the Energy Bill Discount Scheme was launched in April to provide discounts on energy bills for eligible non-domestic customers in Great Britain. The new scheme also offers non-domestic customers operating primarily in sectors identified by the government as the most energy and trade-intensive with a higher level of discount. Businesses that are eligible for the ETII discount need to apply for the additional award in order to benefit.

**About the speaker – Mohamed Eljaouhari, Product Development Director, Bonham and Brook**

Mohamed brings a wealth of experience with a background in engineering and financial consulting. He started his career at a facilities management company, where he worked closely with engineers and consultants in the energy and sustainability fields. His dedication to client relationships and organisational efficiency helped businesses achieve more, resulting in savings of over £15 million in just three years.

### About Bonham and Brook Ltd

Bonham & Brook are innovation tax consultancy who offer businesses clarity and support in navigating the constantly evolving landscape of government incentives and funding opportunities. Key services include energy tax relief, patent box, R&D tax credits, land remediation, capital allowances and stamp duty land tax relief.
