IUCLID is the main tool for REACH, BPR, and now poison centre notification, and is in turn linked to the Chesar CSR tool. The software is itself possible to have as a down-load or as part of a cloud service on-line and these have different functionalities.

The training will be an interactive day with case-studies, working through the software 'live' and it is recommended that those attending have access to a laptop to follow progress. Examples of substances and data will be worked through.

Participants with a basic knowledge of REACH, who want to become familiar with the main IUCLID 6 user functions or participants who may find themselves needing to register under REACH for the first time.

This intensive day provides essential training for all end-users of IUCLID.

• ***The workshop will cover the following aspects:***

- ***Overview of regulatory requirements***
- ***Overview data requirements***
- ***Introduction to IUCLID 6 and REACH-IT***
- ***Brief overview of changes from previous versions***
- ***Practical examples and guidance on how to complete the various dossier types using IUCLID 6 and REACH-IT***
