In Person	£75.00 + VAT	In Person	£175.00 + VAT

The UK First Aid at Work (FAW) and Emergency First Aid at Work (EFAW) qualifications have limited detail in relation to how to handle casualties suffering from chemical poisonings or contaminated during an incident

First Aider's working in the chemical industry should be aware of the aspects they could face while performing their duties.

Are they confident that they would know what to do if they came across an unresponsive casualty contaminated with chemicals?

Do they understand where to find the information they will need to understand the nature of the hazards for the substances their organisation handles?

The workshop is designed to augment an already qualified First Aiders knowledge to specifically provide practical advice for working in a chemical environment.

***The workshop provides a basic insight into aspects of First Aid including:***

- *Chemical First Aid Response*
  - *Antidotes*
  - *Skin/Eye contact*
  - *Poisonings*
- *Sources of Information*
  - *SDS*
  - *Industry guidance*
- *Preparing emergency response procedures*
  - *Considering chemical hazards on site*
  - *Testing of emergency response*
  - *Controls required*

**To book your place on this event, please complete the form overleaf & email it to [events@chemical.org.uk](mailto:events@chemical.org.uk)**

# CHEMICAL FIRST AID TRAINING

4<sup>th</sup> July 2024 (10:00 – 12:30)

In Person, Group House, Crewe
